Summary

Artifact	Status	File
Slide body	PASS	pol_mundial/slides/07_comercio/comercio_b
Presentation wrapper	PASS	pol_mundial/slides/07_comercio/comercio.t
Notes wrapper	PASS	pol_mundial/slides/07_comercio/comercio_n
Presentation PDF	PASS (63 pp)	pol_mundial/slides/07_comercio/comercio.p
Notes PDF	PASS (17 pp)	pol_mundial/slides/07_comercio/comercio_n
Assignment	SKIPPED	Non-methods course
Solutions	SKIPPED	Non-methods course

Slides

Section Overview

Section	Slides	Content
(Intro)	2	Title + roadmap
El rompecabezas del comercio	5	Transition + container ship + steel puzzle + redistribution diagram + Socratic Q
Ventaja comparativa	4	Transition + comparative advantage (Ricardo) + Heckscher-Ohlin + trade patterns
Ganadores y perdedores	5	Transition + redistribution + Stolper-Samuelson + Ricardo-Viner + producers vs consumers table

Section	Slides	Content
Proteccionismo	5	Transition + instruments table + why protectionism + collective action diagram + Trump tariffs image
Política doméstica	5	Transition + electoral institutions + parties/classes + globalization backlash + compensating losers
Cooperación internacional	6	Transition + prisoner's dilemma + GATT timeline + WTO principles + WTO limits + summary
(Closing)	1	Closing Socratic question

Total: 33 content frames (including transitions and image placeholders)

Compilation

- `comercio.tex`: compiled successfully, **63 pages**, 0 critical errors
- `comercio_notes.tex`: compiled successfully, **17 pages**, 0 critical errors
- Overfull hbox warnings: all are 2.13pt (systematic footer issue, below 10pt threshold)
- Two non-critical errors: missing image files `../img/container_ship.jpg` and `../img/trump_tariffs.jpg` (see Images Needed section)

Pedagogy Review Summary

Review performed by pedagogy-reviewer agent. Key findings and fixes applied:

Issues fixed: - Added Socratic question slide after the opening “El rompecabezas” section (Pattern 6 — no on-slide student questions) - Added closing question slide: “¿Es posible mantener el libre comercio sin un estado de bienestar que compense a los perdedores?” - Added payoff matrix legend to prisoner’s dilemma slide (“cada celda: beneficio País A, beneficio País B”) - Added bridge sentence in Ricardo-Viner frame connecting it explicitly to Stolper-Samuelson

Remaining minor items (informational only): - Comparative advantage has no visual diagram — the England/Portugal text example is used instead - Section 5 (Política doméstica) has four consecutive text-heavy slides without an image — a photograph of a factory closure or protest would help visually anchor the backlash narrative

Visual Audit Summary

Review performed by slide-auditor agent. Key findings and fixes applied:

Issues fixed: - Scoped `\footnotesize` inside braces in “Productores vs. consumidores” and “Instrumentos de protección comercial” tables (prevents font bleed into captions) - Fixed table column spec in “Instrumentos”: changed unbounded `l` to `p{2.5cm}` to prevent overflow - Reduced `\vspace{8pt}` spacers to `\vspace{4pt}` in “Instituciones electorales” frame - Removed manual `\\` line breaks inside two-column items in “Partidos, clases y comercio” - Shortened long TAA sub-item in “Compensar a los perdedores” - Shifted prisoner’s dilemma TikZ grid +1 unit right to clear left text margin - Added `\small` to “La OMC: principios y mecanismos” to prevent final-overlay overflow - Shortened GATT timeline band label to avoid overflow within TikZ band

Issues Requiring Attention

Images to Source (Required for full slides)

Filename	Description	Priority
slides/img/container_ship.jpg	Aerial photo of a large container ship at sea or in port with loading cranes; should convey the scale of global trade	High
slides/img/trump_tariffs.jpg	Photo of Trump signing a tariff executive order (2018 steel/aluminium tariffs or 2025 global tariffs), or the press conference with the country-by-country tariff display	High

Until these images are added, the PDF shows a grey placeholder box for each. The slide structure and notes are complete — images can be added at any time.

Suggested Search Terms

- **Container ship:** “aerial container ship port cranes” on Unsplash or Wikimedia Commons (free use)
- **Trump tariffs:** AP/Reuters press pool photos from April 2, 2025 (“Liberation Day” tariff announcement) or March 2018 steel tariff signing

Quality Score

Dimension	Score	Notes
Compilation	100	No errors (image missing is not a compilation error)
Overfull hbox	100	All < 10pt
Pedagogy	88	Fixed all critical/major issues; minor: no CA diagram
Visual layout	90	Fixed all major issues; minor: text-heavy S5 run
Overall	94	Acceptable — proceed
