Summary

Artifact	Status	File Path
Slides (presentation)	PASS	<code>slides/guerras/guerras.pdf</code>
Slides (notes)	PASS	<code>slides/guerras/guerras_notes.pdf</code>
Assignment	Skipped	N/A (non-methods course)
Solutions	Skipped	N/A (non-methods course)

Course type: Non-methods (no **assignments/** folder detected)

Note: An existing lecture on the same topic exists at `slides/03_guerra/`. The new `guerras/` deck is an independent version.

Slides

Structure

Section	Frames	Content
(Intro)	3	Title, WWI trenches image, puzzle of war

Section	Frames	Content
Intereses en conflicto	3	Territory/policies/regime, interests not sufficient, Ukraine image
El modelo de negociación	4	Crisis bargaining, bargaining range (tikz), numerical example, discussion
Compelencia y disuasión	2	Compellence/deterrence, nuclear deterrence (MAD)
Información incompleta	3	Incomplete info, risk-return tradeoff, credibility
Señales costosas	5	Three mechanisms, brinksmanship, Cuban missile crisis image, tying hands, paying for power
Problemas de compromiso	7	Commitment intro, goods that give power (Libya), preventive war, WWI timeline (tikz), preemptive war (Israel 1967), comparison columns, discussion (US-China)
Bienes indivisibles	2	Jerusalem example, mechanisms to overcome indivisibility
¿Se ha vuelto la guerra obsoleta?	3	Great powers wars graph, armed conflicts graph, three factors (I-I-I)
(Summary + closing)	2	Recap, “Preguntas?”
Total	34 frames	

Compilation

- `guerras.pdf`: 83 pages, compiles without errors
- `guerras_notes.pdf`: 17 pages (4-on-1 layout), compiles without errors
- Overfull hbox warnings: all minor (2.12pt), from beamer template, not content

Visual Elements

- 5 full-image frames: `wwi_trenches`, `ukraine_war`, `cuban_missile_crisis`, `great_powers_wars`, `armed_conflicts`
- 1 TikZ bargaining range diagram
- 1 TikZ WWI timeline with period bands
- 1 two-column comparison (preventiva vs. preemptiva)
- 2 discussion prompt slides

Pedagogy Review

The pedagogy-reviewer agent identified the following issues:

Severity	Issue	Status
High	“Bienes indivisibles” had only 1 slide	Fixed — added second slide

Severity	Issue	Status
Medium-High	Abrupt transition into Compelencia section	Noted
Medium	No discussion question in first half	Noted
Medium	Final section disconnected from I-I-I framework	Fixed — reconnected
Low	Risk-benefit tradeoff could use a visual	Noted

Overall assessment: Well-structured lecture with strong narrative arc. The bargaining model is built progressively from puzzle to framework to causes to trends. Teaching notes are detailed and include historical examples, discussion tips, and cross-lecture connections.

Quality Score

Check	Result	Deduction
Compilation	Pass	0
Overfull hbox > 10pt	0	0
Sections with only 1 slide	0 (after fix)	0
Missing <code>\note{}</code> after frame	0	0
Overfull hbox 10pt	~76 (2.12pt, template)	-1 each (capped)

Score: ~93/100 — Acceptable

Images Needed

The deck uses 5 existing images from `slides/img/`. No new images are needed.

If you want to enhance the deck further, consider adding:

- Jerusalem / Temple Mount: aerial photo showing proximity of holy sites (for the indivisible goods section)
- WWII destruction: already available at `../img/wwii_destruction.jpg` but not used in this deck
- Suggested search: “jerusalem temple mount dome of rock western wall aerial” for a striking full-frame image

Issues Requiring Attention

1. Existing `03_guerra/` folder: The new `guerras/` deck covers the same topic. You may want to decide which to use going forward.
2. Some accent inconsistencies may remain in notes: The bulk text in `\note{}` blocks was auto-corrected. A manual review of the notes text is recommended to catch any remaining accent issues.
3. Pedagogy suggestions not implemented (low priority):
 - Add a third discussion question in the first half of the deck
 - Add a visual for the risk-benefit tradeoff

- Smooth the transition into the Competencia section
4. No **.bib** file: The deck doesn't use citations. If you want to add bibliographic references, you'll need to create or link a **.bib** file.
